PROFILE

Innovative Frontend Software Engineer with 5+ years of experience designing and developing responsive, user-centric web applications. Skilled in modern frameworks like React, Next.js, and delivering seamless UI/UX and scalable solutions. Adept at collaborating with cross-functional teams, implementing accessibility standards, and optimizing performance for cross-browser compatibility.

Core Competencies

Frontend Development

Expertise in crafting responsive, user-centric interfaces with modern web technologies such as HTML, CSS, JavaScript, React, and Next.js, delivering seamless and visually appealing digital experiences.

Web Standards & Cross-Browser Compatibility

Proficient in adhering to industry standards and best practices, ensuring consistent, high-quality web performance across diverse platforms, browsers, and devices.

Accessibility & Inclusive Design

Committed to designing for inclusivity by applying accessibility principles to ensure all users, regardless of ability, can easily navigate and interact with web applications.

Project Management & Team Collaboration

Adept at coordinating cross-functional teams, managing project timelines, and delivering high-quality results through strong communication, problem-solving, and leadership skills.
