PROFILE

Dedicated **Front-End Web Developer** and **Software Engineer** with over **5 years** of hands-on experience in **UI/UX-focused web development**. Skilled in **HTML5, CSS3, JavaScript**, and **responsive design**, I create engaging, user-friendly interfaces that prioritize accessibility and cross-browser compatibility. Proficient in **graphic design tools** and **content management systems** like **WordPress**, with a strong understanding of **project management** and user-centered design principles. Open to hybrid roles and willing to relocate to accommodate company requirements.

Core Competencies

UI/UX Design and Web Development

Strong expertise in designing and coding responsive, **user-centric interfaces** using **HTML, CSS, and JavaScript**.

Design and Visual Tools

Proficient in **Adobe Photoshop, Illustrator, and InDesign** for crafting custom graphics and layouts.

Web Standards & Cross-Browser Compatibility

Skilled in adhering to **industry standards** for consistent and accessible web design across platforms and devices.

Accessibility & Inclusivity

Familiar with **web accessibility guidelines (WCAG)** to ensure inclusive design for all users.

Project Management & Team Collaboration

Experienced in leading and collaborating within teams to meet project timelines and ensure high-quality deliverables.
